

NaPro Physicians

NaPro Technology is a women's health science that works to heal and maintain a woman's reproductive and gynecological health, while respecting her human dignity. These physicians do not prescribe artificial birth control to treat reproductive health problems.

NFP-Only Physicians

NFP-Only Physicians are trained in Natural Family Planning and do not prescribe artificial birth control, respecting a woman's human dignity.

If a physician would like to be included on this list,
please contact Susan Hoefer

Vasectomy Reversals

*Since insurance does not cover the cost of vasectomy reversals,
these physicians are willing to provide this surgery at a discounted rate.*
