

IMMUNIZATIONS

Students applying to and enrolled in Catholic schools within the Archdiocese of New Orleans are required to be immunized in compliance with Louisiana law. A school immunization record shall be maintained on each student, according to the schedule approved by the State Department of Health and Human Resources.

I, the parent/guardian, understand that the Archdiocese of New Orleans (see Archdiocese of New Orleans Policy Handbook for Elementary and Secondary Schools Section 5114 and 5114.1) and St. Dominic School require that all students be immunized with vaccines as scheduled by the State of Louisiana (see R.S. 17:170). I will provide proof of immunization before admission to St. Dominic School and promise that we will provide current proof of immunizations as my child reaches the age for other age-appropriate vaccinations as required by the State of Louisiana, the Archdiocese of New Orleans and St. Dominic School. I understand that failure to have my child immunized at recommended intervals as recommended by the state of Louisiana, the Archdiocese of New Orleans and St. Dominic School will result in my child being removed from the rolls of St. Dominic School and he/she will not be readmitted until fully immunized.
