

While summertime is a time for relaxation and less structure it is also a time to refresh, review, and enrich. This file contains several review concepts and skills that are essential for success in both grade level and advanced math classes next year. You will need to print this file.

This packet is broken into two sections: Part 1 and Part 2. Please disregard the cover page and follow the directions here. Part 1 must be completed by all students regardless of their math placement. Part 2 must be completed by all advanced math students, and anyone desiring to have the opportunity to join the advanced math class.

Calculators should not be used unless working with percent concepts. All work should be shown and easy to read, with answers clearly identified

These packets will be collected by the math teachers on Friday, August 30, 2019.

Studies show that an hour a week is all that it takes to strengthen math skills and say goodbye to the summer learning loss. Mathematical foundational skills are essential no matter what math class you are in.
