

A SPECIAL FUNDRAISING PROGRAM

WHERE SUCCESS STORIES BEGIN!

Support St. Mary's School

Since 1987, **USA Masters Academy's** Martial Arts program has used exciting Taekwondo instruction as a vehicle for mental, emotional, and social growth. Sure, your child will probably love the physical aspects of our martial arts training more than anything else; but we know you're interested in so much more than just kicking and punching. This unique **introductory program** is designed to teach a variety of skills including **goal setting**, improved **respect** and **discipline, self-defense**, and **perseverance** to overcome any challenge. We make learning fun and equip students with tools that will serve them for years to come.

Parent Comments

"My children's self-confidence has improved a great deal since they began the martial arts program. I worry a little less about them not being able to handle themselves in difficult situations." -Mr. & Mrs. Smith

"The teachers and students are enthusiastic and top notch. My kids are in a lot of extracurricular activities but nothing like here, not only do we get certified training, we get a fun and respectful family atmosphere. I know my daughter will be learning lifelong lessons." Julie A.

"Excellent instruction! It is impossible these days to find teachers willing to cheerfully demand a high level of respect!" Megan M
