MENTORING A MIGRANT CHILD ISN’T ROCKET SCIENCE.

We need a few responsible and caring adults to help get these kids to their doctor appointments, to give a morale boost before going to a court date, to help sign up for school and sports activities, and just being a ready and available ear to listen while they undergo the joys and challenges of being new to our country.

Your commitment can be as little as a few hours per week.

Please visit our website at www.sfarch.org/care or email care@sfarch.org to learn more about how you can help a migrant child as a mentor through the Catholic Accompaniment and Reflection Experience program (CARE).
