

*It's not fair to you*

*If you are pregnant and don't want to be, there are no easy answers. You have serious, personal reasons to consider abortion or else you would not be here. We respect that.*

*It is unfair to you to make a decision that has profound, permanent consequences until you have all of the facts.*

*You can sort through the lies, fears, and confusion.*

*You deserve to know the truth.*

***We believe in you.***

choice?

# ABORTION

**To get to your baby, the abortionist must go through your body.**

You are physically designed to protect your developing baby, holding your cervix tight until time for natural birth occurs.

Toxic chemicals (RU486) and/or surgical instruments must be used to force your cervix open, often causing **irreparable damage to your own body.**

**Due to abortion,**

**women have experienced:**

**Perforated Uterus or Cervix**

**Bowel or Bladder Injury**

**Excessive Bleeding (Hemorrhage)**

**Infection**

**Retained Parts of the Aborted Baby**

**Unrecognized Tubal (Ectopic) Pregnancy**

**Infertility**

**Increased Risk of Miscarriages**

**Increased Risk of Breast Cancer**

**Death**

**Post-Traumatic Stress Disorder**

**Depression; Guilt; Suicidal Tendencies**

**Eating Disorders**

**Increased Risk-Taking Behaviors**

**Increased Risk of Alcohol & Drug Abuse**

**Nightmares & Night Terrors**

**Anniversary Reactions**

**Difficulty in Relationships with Men**

**Difficulty in Relationships with Children**

**Does your baby feel pain? YES.**

Serotonin (a pain inhibitor) is not produced until 32 weeks. Your baby feels pain much more intensely than we do.

***IF YOU ARE POST-ABORTIVE, please call us for free, professional, compassionate counseling.***

# KEEP YOUR BABY

**CONGRATULATIONS!**

***If you are pregnant, you are already a mom!***

You CAN finish school.

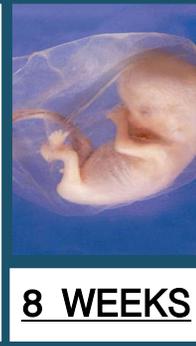

You CAN continue to work.

You CAN live a happy and fulfilling life.

Yes, life will be very different from now on!

You will be amazed at how much your life will be filled with love and meaning because of your new baby!

21 days - Heart is Beating  
4 weeks - Arms & Legs  
5 weeks - Fingers & Toes, Eyes  
40 Days - Brain Waves  
6 weeks - Reacts to Stimuli  
7 weeks - Swims in utero  
8 weeks - Every Organ Present  
10 weeks - Fingerprints

**8 WEEKS**

***UNPREPARED? SCARED? FEEL ALONE?***

Raising your baby will be a tremendous honor AND responsibility. It is natural to feel concern, and it is good to have support. Family, friends, and your church may be able to help more than you realize.

***YOU ARE NOT ALONE  
WE ARE HERE TO HELP!***

Call any of the numbers listed on the back of this brochure. We can help you with free prenatal, parenting and life skill education, as well as material and financial assistance.

Whatever your circumstances, even if you have a difficult prognosis, ***call us to see how much help is waiting for you!***

# ADOPTION

After learning about current adoption choices, you might choose to make an adoption plan for your baby.

Working with adoption professionals, **you can choose the best plan for you.**

In a **closed adoption,** you can remain completely anonymous.

In an **open adoption,** you can choose the adoptive couple from among the many already screened and qualified couples waiting to adopt a baby.

If desired, you could continue to have ongoing contact with the baby and the adoptive family, providing you with confirmation of the child's well-being.

If you make an adoption plan to give your baby life, we will still be here for you, even after the adoption.

***Your future may seem uncertain right now, but it is filled with hope and healthy choices. Call us. Let us help. We care about you.***
