

# *Go Paperless!*

We Are Not Getting Report Cards On Paper This School Year.

By:Gianna LaFace

This year the students at St.Charles School are not getting report cards on paper, but getting report cards online. This means that each student's parent will get an email to confirm that the parent has gotten the student's report card. My mom said, "I think that report cards online will be better because it will go directly to the parent of the student." Now the parents don't have to worry about their child losing his or her report card.

5th grade and up will still get honor rewards on paper like it always has been. The first report card was sent out to parents on Thursday, November 14th. Everyone seemed happy with the paperless report cards. We will have three more report cards this school year. This reporter is happy that our school has gone paperless. It is one way to help our environment.
