

St.Charles School is Cool!!!

This year my school is getting AC to keep us cool:)

By: Amy Guglielmo

St.Charles School is finally getting ACs for each classroom!! For the times when it gets really hot, we have AC in this school to keep us cool. Recently, this school just installed AC so that we don't get overheated on the very hot days of spring and summer. I can't wait for one of those hot days so that we can get some use out of them.

I asked a teacher in this school, Mrs.Devlin, how she thinks the spring and summer is going to be like with the new AC unit and she replied,"Amazing! It will be so nice to be able to work in comfort." I thought the same thing. I feel kids will be able to concentrate a lot better without having to sip your water 24/7. This summer in school will be so cool!!!
