

Art Classes

By : Jillian Rae Granada

Every Tuesday, Mrs. Arena, the school's art teacher, meets with the students at St Charles. She paints, draws, and colors with the students, teaching them the fine points of being an artist. After the masterpieces are finished students hand them in and the next class they see their grades. Art helps future artists practice their skills with professional materials. Most classes have a smartboard so our art teacher draws most of her artwork on it for us to copy. Many creations take more than one session since class time is limited to 30 minutes. Materials like oil pastels, colored pencils, and crayons are used with grades K through 8. Art class is a fun way to show creativity and St. Charles is lucky to have such an amazing program!
