

"I Pray Every day"

By Ella Cipriani

*Life has been different since this virus occurred...
Every day we are hoping for it to be cured.
All those risking their lives...
To stop people from saying their final goodbyes...
Are all always in my prayers.*

*For my family to stay safe...
So that someday we can all celebrate...
The days that we missed...
Because of this social crisis.*

*I pray every day...
For this virus to go away.
So that life can be back to normal...
And we can finally dress somewhat formal.*

*I know God had this planned for a reason...
But it still gets difficult when lives were taken.
All those families I pray for...
Who lost someone they loved...
Are in my heart because they are beloved.*

*Someday we will all look back
And laugh at the fact...
That we felt like we were in a movie
And it started to become a little gloomy.*

*I pray everyday
For this virus to go away...
and we can get back to normal...
Just like yesterday.*
