

## Interested in live-streaming your wedding ceremony?

Good Shepherd Parish now offers live-streaming for your wedding! Help bring your special day to those who might be otherwise unable to join you.

Our offering includes:

- Dedicated broadcast to our parish YouTube channel (private or public, your choice) and to our Facebook page (public, if desired).
- Our two camera setup includes 30x optical zoom at 1080p resolution. We connect directly to the house sound system for improved audio quality.
- Our wall mounted cameras allow for an unobstructed view of your celebration.
- In addition to being available live, your event will also be stored on YouTube for later playback after the event (either publically, or via a private link).

This service is completely optional. If you wish to offer live-streaming as you join together in the Sacrament of Marriage, let us know. Please provide at least 2 weeks' notice to our parish secretary so we can schedule our AV team.

*As this is a separate and optional offering, a \$50 cash stipend, given directly to the AV technician(s) is requested. This is in addition to any other stipends or fees, and is given directly to the trained individuals who will be broadcasting your celebration.*

Please let our parish secretary know your preference:

- Stream to Good Shepherd Parish's YouTube as a **public** video  
*Easily accessible, family and friends can search for your name and on demand after (Recommended)*
- Stream to Good Shepherd Parish's YouTube as an **unlisted/private** video  
*You must provide a special link to your at-home guests, unable to be searched by name*
- Stream to Good Shepherd Parish's Facebook page as a **public** video  
*All church followers will be notified and able to watch and comment*
