

Congratulations to you!!

Webster's defines success as "Favorable Results." Though done differently we feel we were successful. Because of our many generous donors and sponsors I believe even Webster would agree we had "favorable results."

Some people require a village; we were able to do it with just a parish, not the Alaska or Louisiana style.

We were able to adapt and overcome the harsh conditions that Mother Nature sent our way – Covid and the weather.

I can only hope that we won't have to go through another pandemic style pasta dinner like this one again.

Thanks to all who again were willing to be a part of an important parish function. A very warm thank you to those who braved the elements and made us successful. I hope you enjoyed it almost as much as past years. If you want to have a warmer experience (we hope), keep February 26, 2022 in mind, we'll be back for another try.

Thank you for your support,

Marti Damm
Frank Schneider

To any sponsor we have missed or misspelled, we apologize.
