March 20, 2020

Dear Parents,

As a follow-up to the letter from our Superintendent of Schools, Michael Deegan, we want you to know that our teachers have been working all week to prepare lessons for your children so that their education may continue. Your child's teacher will be in touch with you regarding specifics.

Because of the varying number of children in each family, you know better how to create an educational schedule for you and your family. The recommended schedule for study is:

PreK – Grade 1	1 – 1.5 hours per day
Grade 2 – Grade 4	2 – 2.5 hours per day
Grade 5 – Grade 8	3 – 3.5 hours per day

Please note that according to the Safe Environment Program of the Archdiocese of New York, teachers are not allowed to communicate directly with students via email or phone. All communications must be done with the parents. Please check your emails for important information from the teachers. Teachers can also be contacted during the week if questions arise. We are here to help you.

Our thoughts and prayers are with you during this difficult time. Stay well and give your child a hug from us. We love them and miss them a great deal.

Sister Mary Elizabeth, O.P.
Debbie Fessman
