

Online Classroom - Where to Start

Kingston Catholic is using a Google Education® based learning environment. To start log onto your computer and open your browser, we use Chrome . Go to the address bar and enter Google.com. In the upper, righthand corner will be a signin button. Click it to enter your student's username and password (see Student Login Sheet). If the username is not correct you will get an error message and need to try again. If the username is correct, you will be prompted for a password.

When you are successful the upper right-hand corner of the browser will show an Icon for your account. Please note that the 9-dot icon next to the big user icon is often referred to as 'The Waffle'. This is the way to get to all of your Google features (like Classroom)

If you have any trouble logging (forgot the new password already, can't get the student's username to work, etc.) please contact the TechTeam at KCTech@KingstonCatholic.org. The Tech Team will be monitoring this account to provide login assistance.
