

Dear new 5th graders and families,

Welcome to 5th grade! I am so thrilled to be your teacher this year! I am looking forward to getting to know each of you and working together to grow and learn during this year full of adventure.

I am excited to guide you and watch you grow spiritually as we study our Catholic faith. We will increase your knowledge and understanding of the seven sacraments while we practice our Catholic values and do our best to treat others with kindness and respect.

We will be working to advance your skills in reading, writing, listening, and speaking during ELA and throughout the days ahead.

In math, we will progress through our modules and strengthen your skills in addition, subtraction, multiplication, and division with whole numbers, fractions, and decimals.

We will explore the world around us as we study Science. We will learn about matter and forces and their interactions, energy, and ecosystems.

We will journey through the Americas as we study the United States, Canada, and Latin America looking at not only the past, but the present and what the future could hold.

I hope you have been reading and practicing your math skills over the summer! I can't wait to meet you in September!

Your very excited teacher,
Mrs. Jackowski
A.K.A. Mrs. J.
