

Welcome Back, Students!

Summer may have come and gone too quickly, but I am so excited to start another year with you all. Your art class will be similar to the way it was last year, a.k.a. Art on a Cart, with a few small changes as well.

Art supply lists should have been provided to you through your classroom teachers. Supply lists by grade can also be found below. It is important every student has all materials listed to ensure we all have an equally fun and creative year. Please note that materials may need to be replenished throughout the year.

This year's curriculum will look deeply into Art History, starting at the creation of art and continuing to modern day. Our projects will hopefully not only strengthen your knowledge of the topics we discuss, but also increase your skills as artists.

Art should never be based on personal skill, but rather on making something to be proud of. To encourage this in my classroom, I have three guidelines I follow when grading your work: (1) Follow instructions (2) Work neatly and (3) Show enthusiasm for your work. My hope is for each student to try their best and hopefully learn something new along the way.

I am looking forward to another exciting and colorful year with you!
Sincerely,

Ms. Hurley
Art Teacher
