MEMO from Sister Mildred: COVID 19 Update

11/11/20

We have had a substantial rise in the number of positive COVID cases since 10/31/20. The Department of Health considers 6 positive cases in a 2 week period a significant reason to quarantine a school for 14 days. We have 7 total cases as of today and at least 2 more test results to come. With that being said, we are asking you to prepare that we may be asked to close at the end of the day tomorrow (11/12/20). As we receive more information, we will prepare a letter for you before 1:00 P.M. tomorrow with specifics necessary to address the directives of the Health Department and how we will be going forward. We anticipate your heroic support and encouragement and urge you and yours to continue the safe practices (masks/distancing/prayer) necessary to navigate these challenging times.

We also received word that the husband of our former Technology teacher, Mrs. Patricia Smietana, has passed away. Please keep them in your prayers as we share strongly in her loss.
