The Little House- Sequence of Events

Cut and order the events from the story.

The little house was built in the country.

The great-great-granddaughter of the man who built the little house, said the house looked just like the one her grandmother lived in.

More roads were made. Houses, apartment homes, schools, stores, and garages began to spread over the land.

The little house sat on the hill and watched time pass and seasons change.

The city began to grow around the little house.

It was not so quiet and peaceful anymore. The little house was not sure if she liked living in the city.

One day a road was built through the hill.

The little house was moved back to the country where it was nice and peaceful.
