

August 25, 2009

Dear Parents of Johnson County Catholic Middle School Students:

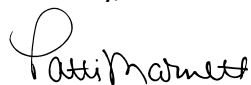

As your child's graduation from a Catholic elementary school draws near, you are probably considering the next step in his or her education. You have already demonstrated a desire to provide an excellent education in a context infused with Gospel values. This commitment has given your child greater access to liturgy and the sacraments along with instruction about Christian moral principles, and Christ's presence among us during the school day.

When planning your child's secondary education, we hope that you will again choose Catholic education. We realize that a Catholic high school education is a financial commitment, but we want to ensure that Catholic education is available to all who sincerely seek it for their child. The three Archdiocesan Catholic schools in Johnson County serve a broad range of socio-economic families, each with its unique set of circumstances and variables such as number of family members, students in college, household income, etc. Each high school has its own procedure in place regarding tuition assistance, so we recommend that you discuss individual questions regarding financial commitment after making your school selection.

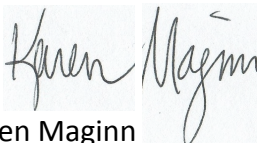

We urge you to explore the options available to further your child's Catholic education and faith formation. Our Catholic high schools offer a caring, nurturing place to hear the message of Jesus that He "came that they may have life and have it to the fullest." We invite you and your family to be a part of our faith community.

Please contact your preferred school's Admissions Office for information on the enrollment procedure and financial assistance programs. Thank you for your time and consideration.

Sincerely,

Patti Marnett
