Introduction
The Music Course of Study prescribes what shall be taught in the elementary and secondary schools of the Catholic Diocese of Columbus (kindergarten through twelfth grade). This document represents the work of a committee comprised of music teachers who met the challenge of devising a Diocesan K-12 Course of Study. It provides a complete and balanced music education program for all students in the context of the Catholic faith.
We believe that music education is essential to the basic education of all students.

Music education experiences lead students to:
1. experience the power of sung prayer and the joy of expressing faith through music;
2. represent the most telling imprint of any civilization and serve as records of history, expressions, and beliefs;
3. recognize symbol systems which people use to create, communicate, express, and acquire understanding;
4. represent forms of thinking and ways of knowing by participation in the world through cognitive and sensory experiences;
5. embody the deepest expression of humanity;
6. integrate all facets of daily life experiences: worship, education, community, and work; and
7. understand the connections among the arts, other academic disciplines, and life experiences.

The Diocese of Columbus’s Standards:
1. set high expectations and provide strong support for achievement in music by all students;
2. offer the necessary tools to support life-long learning and full, active, conscious participation in worship in Catholic schools and parishes;
3. reflect national, state, and Catholic standards; and
4. incorporate the use of technology in music study and production.

Assessment
Music teachers have always valued assessment methods that go beyond traditional paper-and-pencil testing. These assessment methods honor aspects of the artistic experience such as engagement, imagination, and creativity. Music assessment always involved performance assessments.
Assessment of Cognitive Skills Include:
• knowledge of music in history and culture;
• understanding various criteria and purposes for music;
• knowledge of music vocabulary;
• analyzing and describing characteristics and meaning of different types of music; and
• knowledge of how music connects to other curricular areas.

Performance Assessment Skills Include:
• participation and discussion; and
• performance in class or concert setting.

Assessment Tools:
• Tests/quizzes
• Performances
• Oral and written critiques
### Enduring Understandings

**Personal Choice and Vision:** Students construct and solve problems of personal relevance and interest when expressing themselves through music.

**Critical and Creative Thinking:** Students combine and apply artistic and reasoning skills to imagine, create, realize and refine musical works in conventional and innovative ways and to understand the works produced and performed by others.

**Authentic Application and Collaboration:** Students work individually and in groups to focus ideas, create and perform music to address genuine local and global community needs.

**Literacy:** As consumers, critics and creators, students evaluate and understand visual and performing artworks and other texts produced in the media forms of the day.

In a musical performance, the clarity and distinct rendition of music tones.

Audience etiquette
The rules for good conduct as a member of an audience.

Authentic performance practice
A performance that is marked by its attention to historical music details (e.g., performing on period instruments; playing music the way it was performed when created).

B

Beat
The regular pulse or unit of time in music.

Breath control
The regulation of one's breathing for better vocal or instrumental (wind) performance.

C

Call and response
A music form that follows a question-and-answer pattern in which a soloist or group performs and then a second soloist or group responds.

Canon
A music form in which the same melody is started at different times and performed together in overlapping succession. Sometimes referred to as round.

Chord progression
The progression of chords (simultaneous combinations of three different pitches) in a piece of music.

Chromatic
Incorporating notes that lie outside the regular diatonic scale.

Clef
A symbol at the beginning of a staff that indicates the location of pitch on its lines and spaces (e.g., treble, bass).

Concert pitch
A specific frequency of sound recognized as the standard pitch. In an ensemble of mixed instruments (e.g., band), playing a Concert B♭ major scale indicates that nontransposing instruments (e.g., flute) play a B♭ major scale. Transposing instruments, in order to play a Concert B♭ major scale, would need to play the scale, that when performed, sound the B♭ concert pitch as the starting note [e.g., B♭ Trumpet would play a C to sound B♭ (concert pitch); E♭ Alto Saxophone would play a G to sound B♭ (concert pitch); French Horn in F would play F to sound B♭ (concert pitch)].
D

Diatonic
The notes of a major or minor scale.

Diction
Pronunciation and annunciation of words in music.

Dynamic markings
Signs that indicate the volume (loudness or softness) of a note passage.

Dynamics
The volume (loudness or softness) of sound in music.

E
