

# TO BE PURCHASED BY LABOR DAY

## Four Wood Boxes

The Michael's example above left is approximately 8" x 5". These can be square, oval, rectangular; any size bigger than 4" x 6", but no larger than 8" x 10".

## Two Stools

They can be collapsible, but it's not necessary. Height should be between 12" and 18" high and do NOT need to be new, though they do need to hold an adult.

The example is from Walmart for \$15.00.

**Two Area Rugs**, approximately 4' x 6' or 3' x 5'. The rugs can be gently used but we need a neutral color and/or pattern. Nothing too busy.

## Three Matching Glass Containers

We don't need the tops but they need to look alike and hold between one and two cups each. They will be used for seedlings

## Washable Paints and Paint

**Brushes** We don't need a lot of different colors, but different types of paint would be great. Also, many sizes of paint brushes for kids are helpful.

## Sturdy 3-Shelf Unit

This unit can be purchased at Home Depot. It's 14" W x 38" H.
