July, 24, 2020

Dear St. Andrew the Apostle Families,

As the start of the 2020 - 2021 school year approaches, we want to provide further insight into our new Institute of Virtual Learning (IVL). IVL is available to all 1st through 7th grade students registered at St. Andrew the Apostle School.

St. Andrew the Apostle will be using Google Classroom as our learning platform for both on-campus students and IVL students. Our teachers have been working diligently to develop effective instruction so that St. Andrew the Apostle will move seamlessly between the different phases of quarantine, as well as, ensure the same Blue Ribbon education to all of our students, whether at home or at school.

Students in the IVL program will receive the same instruction as students who choose to come to the physical campus. All students, both IVL and on-campus learners, will be also able to access videotaped instruction created by their teacher. In addition, teachers will schedule small group instruction and review using Google Meet for those students choosing IVL.

Should you choose, students that enroll in the IVL option will have the opportunity to rejoin on-campus learning at the beginning of each quarter. Our goal is to create a fluid learning environment for our students between on-campus and at-home learning.

If you would like to take advantage of the IVL option for your child, please fill out the required, attached IVL registration form. Please fill out one form per child. The deadline for IVL registration is Friday, August 7th. Questions regarding the IVL program should be emailed to curriculum@sasno.org.

We are still taking applications for interested students for both on-campus and IVL learning.

Sincerely,

Mrs. Erin Sarrat
St. Andrew the Apostle School
Director of IVL
Curriculum Coordinator
