

## **Financial Peace University Testimonial from a St. James Family**

**The following is a testimonial from a St. James family that took the Financial Peace University class and how it impacted their lives:**

I want to share this testimony with you. Vinny and I took your Financial Peace class last September. The class was great and helped us in so many areas of our finances. Usually Vinny took care of this area, but we began to work together and I started planning out each month and was learning how to pay the bills on line. Your course helped me to understand and learn how to handle the finances.

Unfortunately, this past April, we were in a head on car crash. Vinny was seriously injured, over 20 broken bones, and spent weeks in the ICU, weeks in the hospital and then he was at Gaylord for months. He just came home August 13th. We know God protected both of us and we are so thankful we didn't have any internal injuries or heads injuries. Vinny continues to recover and is making good progress.

So I can't thank you enough for leading this class. I would have never been able to take care of the bills etc....without Financial Peace!
