September 13, 2019

Dear Parents,

We have started talking with the children about how special they are and how each child is **unique**. We are encouraging all the students to think about all of the wonderful ways that God made us individuals.

Highlights from the week:

- Identify ways that we are unique
- Write the letters of the alphabet on a coconut tree
- Play alphabet bingo
- Illustrate themselves using correct colors for hair and eyes
- Create a class graph identifying eye color
- Trace and write numbers to 10
- Search for letters in the sand table
- Practice rhyming
- Use counting skills to identify amount and numbers
- Introduce beginning and ending sounds
- Reinforce the concept of narratives vs. expository text

Star of the Week:

Parker was our “Star of the Week”. He brought in a bear stuffed animal, stuffed Santa, his family, an elf stuffed animal and a dog stuffed animal. His favorite thing about being “Star of the Week” was sharing his family with the class.

Looking Ahead:

September 13th -15th: Family Festival (We hope to see you there.)

September 23rd: Individual School Pictures

September 25th: Curriculum Night

(We look forward to seeing all parents that evening)
