All About Polar Bears

Read the passage below. Answer the questions to show what you learned.

Polar bears are large animals that live in the Arctic. A polar bear's body is built to help them live in the cold. They have thick fur. And, polar bears have black skin. It helps them get warm in the sun. Polar bears also have blubber. Blubber is fat that is like a warm coat.

Did you know that polar bears are good swimmers? A polar bear has big paws. They help them paddle. Polar bears are slow, but they can swim for days. They usually swim to find their favorite food: seals.

What is this passage mostly about?

What is special about polar bears?

How do polar bears find food?
