

Dear **Parents**,

I pray that this latest communication finds you safe with your family. The school is in good condition, considering how bad it could have been. The power was restored a couple of days ago and it remains on, which is good! Mrs. Rawle and I walked into every room to inspect and have turned on all of the AC units. Our lawn service, Anthony's Complete Lawncare, came out the very day after the storm to do major clean up and removal of debris. Mr. RJ Gaudet, in the first few days following the storm, got the water out of our buildings, and yesterday he was able to get the lift station up and running. Mr. Stephen Murrish has gone around campus and is happy to report that we now have working internet. Executone is here working today to get our intercom and bells fixed. CAPS Construction has begun repairing fences, gutters, and pressure washing.

I have already met with the insurance adjusters who came to look over our roof damage and evaluate moisture levels. We are waiting on inspections that we hope and pray will be completed by Friday! There is still much work to do and paperwork to complete, but I am feeling confident that we can reopen on **Monday, September 13th**.

In order to assist with our preparations for opening, we are asking you to please complete a survey for **each child** who attends **Immaculate Conception School**.

Click here for link to survey: [POST HURRICANE IDA SURVEY](#)

Some of our families reside in the areas hit hardest by Hurricane Ida. I know that I speak for our entire school community when I say that we will do everything possible to support you. We are in the early stages of planning a collection drive for needed supplies and resources for those in need. Please look out for more information in the coming days.

We continue to pray for all who have been affected by the devastation from Hurricane Ida, and we pray to Our Lady of Prompt Succor to spare us from any further loss of life or property during this hurricane season.

In Christ,

Mrs. Kim DiMarco  
Principal
