

## **Marguerite Vida – In Memory of Lou Vida**

Lou Vida was a resident of Lorain County his whole life and worked as an engineer at Lorain Products for 30 years. Lou proudly served in the United States Marine Corp during the Korean War.

Lou believed in supporting his community. He volunteered with Lifeline at Mercy Regional Hospital in Lorain and volunteered at St. Joseph Catholic Church, helping with electrical work.

Lou enjoyed woodworking and reading. He was a compassionate, caring man with a generous quiet spirit.

**We would like to recognize our first individual donation made in Lou's honor to Blessing House by his family.** A \$60,000 donation has been made to Blessing House to start a fund to help build a bigger house to be able to take care of more of the children who need a safe place to stay when their family needs help. This donation was instrumental in getting our project started.

We are blessed to receive this generous donation and are most thankful to his family for honoring him in this way.
