

2020 Parish Census

On the Sunday before Ash Wednesday we started our census. Just before Covid-19 Forced the elimination of gatherings over 10 people in a given area, we had 335 responses. Most of them were full of the information needed. Some were a little sparse, maybe fearful that the information would be used improperly, like selling or giving the information to vendors.

The information is used only to let us know how many people, adults and children, are in our parish, to have phone numbers and e-mail address to allow us to communicate, and to get birth dates for our monthly birthday listings.

For anyone who missed the opportunity to participate, it is still possible to do so, by going on line to our website and clicking on ABOUT then click on Staying Connected, fill in that form and submit it, then click on register, fill that in and submit it.

Those are the same as the front and back of the paper form.

Or when we are again able to gather in the church, I have put

A container of blank forms on the table at the front entrance Next to the Statue of the Sacred Heart of Jesus.

Deacon Ben
