## Announcements

**Charity and Stewardship (DDP) Appeal:** The annual diocesan Bishop's Charity and Stewardship (DDP) Appeal will be conducted this weekend. Just as we are one in the Body of Christ, we must remember that we are one with other parishes in our diocese. Once a year, our bishop asks each of us to make a commitment to support the work of our diocesan programs and ministries that provide services that no one parish could provide on its own. This effort is a means by which we can all work together to care for the Church by sharing the gifts God has granted us. Please experience the joy of giving and join us as we work to continue God's work of spirituality, charity, and education.

### Woman: The Heart of the Home *(catholicmom.com)*

Blessed Mother Teresa of Calcutta reminds us that our purpose in life is to "love and be loved". Just as the heart is the central and most significant feature of the human body, through which life-giving blood is pumped and sent through our veins to sustain our existence, you, dear Catholic mother, are the most important element of your home.

Home; that beautiful, wonderful place where our families live-out their calling. It is, if you will, like the body... and all of the members who reside within are the bones and the muscles; the nervous system and the brain. But, the heart...the heart is "mother".

As mothers, we are to nurture the lives in our care. Just as the human heart feeds life into our veins, we feed life into our families through our love, our service, and our joy. All eyes are upon us from our beloved husbands and children. The family's disposition and tone revolves around our own. Are we happy? Are we content? Are we gentle and kind? ...

... Jesus is the heart of the Catholic Mother. ,,,

**Instructing in Faith/Hope/Love:** Soon I will begin an inquiry class: Exercise Faith/Hope/Love. Please pray: "Come Holy Spirit, fill the hearts of your faithful and kindle in them the fire of your love. ..." (see back) I think Monday will be best. ### **Smoke Alarm Inspection** <https://www.nachi.org/>

According to the Consumer Product Safety Commission:

- Almost two-thirds of reported deaths caused by home fires from 2003 to 2006 resulted from fires in homes that lacked working smoke alarms.
- Older homes are more likely to lack an adequate number of smoke alarms because they were built before requirements increased.
- In 23% of home fire deaths, smoke alarms were present but did not sound. Sixty percent of these failures were caused by the power supplies having been deliberately removed due to false alarms.
- Every year in the United States, about 3,000 people lose their lives in residential fires. Most of these deaths are caused by smoke inhalation, rather than as a result of burns.

Inspection tips:

- Parents should stage periodic night-time fire drills to assess whether their children will awaken from the alarm and respond appropriately.
- Never disable a smoke alarm. Use the alarm's silencing feature to stop nuisance or false alarms triggered by cooking smoke or fireplaces.
- Test smoke alarms monthly, and replace their batteries at least twice per year. Change the batteries when you change your clocks for Daylight Saving Time. Most models emit a chirping noise when the batteries are low to alert the homeowner that they need replacement.
