

Position: Junior High Math Teacher

St. Robert School is a K-8 school community located on the peninsula in San Bruno. Our vision is for the whole child to experience the rewards of positive self-esteem, self-discipline, respect of others, and a true sense of community spirit as they develop their skills as **R**espectful Christians, **E**ffective Communicators, **A**ccountable Citizens, and **L**ifelong Learners (REAL Kids).

Our school is seeking a qualified, full time junior high math teacher for the 2021-2022 school year to teach pre-algebra to geometry to our 6th through 8th grade students. Candidates must hold current certification of a California Teaching Credential* (or equivalent from another state), preferably with a single subject emphasis in math or multiple subjects, along with the following:

- A Bachelor's Degree
- Desire to collaborate with colleagues and administration in developing an engaging and innovative curriculum.
- Teaching experience in a classroom setting
- Ability to utilize and integrate technology in daily instruction and curriculum implementation
- Proficient use of technology in communicating with students and families.
- Classroom Management skills and experience
- Committed to excellence in supporting the mission and vision of Saint Robert School.

We invite you to visit our [website](#) to learn more about the Saint Robert School community.

Salary: as per the San Francisco Catholic Schools Salary Scale.

Please email a cover letter and resume to Dr. Patrick Sullivan at PSullivan@srbears.org

Statement of Non-Discrimination

Saint Robert School adheres to the following policy, "All employees of the Archdiocese of San Francisco shall be employed without regard to race, color, sex, ethnic or national origin and pursuant to the San Francisco Fair Chance Ordinance, we will consider for employment, qualified applicants with criminal histories. (Administrative Handbook #4111.4)
