

Summer 2020

Dear Parents/Guardians,

This summer, maybe more than ever, you might be looking for some resources to help your child keep up with his/her math skills. Below you will find some helpful website links, which are separated by level and grade. The review websites offer tutorials for each topic and assessments to self-monitor progress. These are only suggested websites and are not required work. Feel free to adjust the level based on your child's ability and/or comfort level.

Have a wonderful summer!

Happy calculating,  
Your Middle School Math Teachers
