July 9, 2020

Dear Parents,

I hope this letter finds everyone healthy and safe. I would like to take a moment to extend a warm welcome to all of our new families here at St. Peter School.

While I hope you have been able to find some time to relax this summer, I just want to remind everyone to please check the school's website for your child's summer reading and math requirements, as well as their supply list.

We have been very busy on campus making plans to welcome all of our students back. I know there is a lot of uncertainty out there right now, but one thing I know is we are preparing to welcome our students back on campus.

As we plan for the reopening of St. Peter School, there are many resources we are using in our preparations to make this a safe environment for all of our students. The Office of Catholic Schools has provided a detailed Framework for Reopening, as well as resources from the Louisiana Department of Education and the Center for Disease Control.

Today, I met with all faculty and staff to discuss what a "Covid Classroom" will look like. As I told them, there are definitely some advantages in being a small school. One of the biggest concerns for everyone is Social Distancing, and for us this will be manageable. We discussed many other things regarding hygiene, hand-washing, sanitizing, etc. As soon as our school's plan is approved by the Office of Catholic Schools, I will share more detailed information with you. In the meantime, if you have any questions regarding reopening, please feel free to call the school office or you can email me directly at mcomeaux@stpeterreserve.org.

As always, please check the school's website or call the school office for any additional information. If there are any more updates until our plan is complete, I will let you know. Please make sure the office has your current email.

I hope you enjoy the rest of your summer and praying for good health for all.

Sincerely,

Marie Comeaux, M.Ed.
Principal
