

Building a Legacy: On the Rock

Facility Project Update 11-22-20

Highlights for the week:

- The Structural Steel is impressive defining the Gathering Space and the Chapel
- Many ongoing activities: Ceiling framing, Wall Framing, Insulation, Duct work, Sprinkler rough-in and Electrical rough-in
- Rough-in inspections have started which trigger drywall.
- Underground ductwork [the big blue tubes you see on the parking lot] started this week.

Coming Events:

- Our Pastoral Associate, Rick Hardy, is creating a video of the progress made inside the Church and in the new spaces with the Construction.
- Alisha Giles is pulling everything together, including the progress video, to post on-line. Watch you email for links through Happenings!
