

## ***St. Peter Facility Project***

### ***Construction Timeline***

***August 2020 through March  
2021***

The Milestones at a high level:

Expect construction to begin early August 2020. Construction trailers and materials will be staged on the east drive and lawn; all fixtures will be removed from the Church; asbestos abatement will occur.

Construction will ramp up after Labor Day with site demo, utility work, and the excavation and pouring of the footings and foundations; renovation will begin in the Church

Steel and exterior walls will go up mid-October into November; the interior Church renovation continues
