

WHERE R YOU?

This pandemic has taken its toll on us. It has been a rough year and a half. Covid 19 has affected each of us in a variety of ways. Most of those ways have been negative. We no longer take certain things for granted. We have missed out on graduations, celebrations, vacations and everyday activities. Many of us have lost loved ones to the virus. Many of us are dealing with anxiety, depression, loneliness, family issues etc. Some of which we may have struggled with before the pandemic, but has been intensified since this all began. Some of us, have even lost our faith in God. We may directly or indirectly have turned away from our faith. But it is never too late to start over.

So, the question I have for you is **WHERE R YOU** in your faith journey?

Are you in the process of RETURNING back to God and the Faith?

Are you REPENTING of ways you may have neglected God?

Are you RECEIVING all that God wants to give you?

Are you RESPONDING to the purpose God has created you for?

Where ever you are in your faith journey, we want to walk with you.

Don't wait until it's time to do your Confirmation or your quincenera to get involved with Lifeteen. God is waiting for you and wants to help you become the person he has created you to be.

So, **WHERE R YOU** in your faith journey?
