

Dear CSGK Family,

Last week, we introduced the five sub-committees that are working together to develop the “COVID-19 CSGK 2020-2021 School Year Plan” for our three schools. Each of these groups has met and begun their work. Attached are two documents sharing these committees’ goals and the timeline guiding their efforts as we prepare to return to classroom instruction on August 25, 2020. These documents will be submitted to the Diocesan Office of Schools by June 30. The Superintendent is monitoring plans for all 21 Diocesan schools.

We appreciate your responses to last week’s survey, sharing your questions, suggestions, and areas of concern. A summary of these responses and how they will be addressed by committees is also attached today.

We will continue to share updates as this work progresses. Relevant documents and resources will be published at www.csgk.org/covid-19-csgk-2020-2021-school-year-plan throughout the summer.

You will be notified through a Parent Alert text when new information is available. We recommend that you take a moment this week to log in to FACTS (formerly RenWeb) and ensure that your contact information and preferences are up to date.

We are grateful to the parents, faculty, and staff members who are sharing their time and expertise to prepare the “CSGK 2020-2021 School Year Plan.” We appreciate our school families’ thoughtful feedback, and your prayers for the success of this planning process. We trust in the Holy Spirit to guide us, and grant us wisdom and diligence in this important work.

Thank you for choosing Catholic education for your family. We look forward to seeing your students in class again soon.

CSGK Leadership Committee
