

## 1st Grade Lesson Plan for the week of 4/15-17/2020

The following is the work you will need to complete over the half week after our Easter break. Assignments which will be graded are noted. All assignments are considered part of a participation grade for that subject; work which is not completed will count against the participation grade. Please email us if you have any questions or concerns.

### Math:

- Students need to complete the assignments listed on Freckle; if you scroll down to the bottom of the list you can see if any assignments from previous weeks have not been completed. If you are finished with all assigned work, nothing will show in your list. These will count as a participation grade for the week. If you did not complete something in previous weeks you can still complete it for a participation grade.
