

6th Grade Lesson Plans Week of April 13-17

Math

- 1) Freckle - Adaptive Math – Geometry: Complete fifteen minutes of practice.
 - . I will check student times each morning and email those who have reached thirty minutes for the week. This completion will count as a participation grade for the week. You can get an idea of how much time you have practiced by visiting the “Progress & Growth” section of “My Tracker.”
- 2) Fraction Addition and Subtraction
 - . On Friday morning, I will send students a link to an assignment. Students must complete the assignment by the end of the day. I will grade the assignment and post grades on Saturday morning. I will also offer practice work throughout the week for students to prepare for the assessment.

English

Go to [freckle.com](https://www.freckle.com) and you will see that I have assigned four articles. You need to choose two of the four articles to read and respond to. Make sure your responses are relating to the question and are well-thought out. You should be responding with at least one paragraph consisting of at least 5-7 sentences for each response. You need to include details and explanations in your response. **Your two responses will be graded as a single grade for the week.**

List of choices you will see on Freckle:

1. The Attic Speaks
2. History of Cars
3. Parkour
4. Food Trucks

Religion

Go to: religion.sadlierconnect.com Click on: 1) Sadlier Religion Resources 2) Click on Question of the Week 3) Click on April 5, 2020

Lesson 1

Read 1st Reading and Reflection. Answer Discussion Questions for Reading 1 and turn in on Plusportals via E-Locker.

Reading

Read for Book Bingo

History – Ancient Mesopotamia

Complete 3 articles assigned with questions on Freckle.

Assignment One: The Epic of Gilgamesh

Assignment Two: Science and Technology in Ancient Mesopotamia

Assignment Three: Religion in Ancient Mesopotamia and Ziggurats

Science

Complete 3 articles assigned with questions on Freckle.

Assignment #1: Animal Habitats

Assignment #2: Animal Groups

Assignment #3: Animal Structures for Survival

If you do any hands-on activities or experiments with your family that are science related please send me pictures or videos explaining what you learned. Have fun!

Grading Policy for History and Science

- Students will receive one grade for the week (Monday-Friday)
- **Student's grades will be the average of the 3 assignments posted for that week**
- If a student does not complete an assignment, it will result in a 0 which will then be averaged with the other grades completed
