

"We have had such a wonderful experience at St. John's preschool. Two of our children have gone, or are going, through the preschool and Junior Kindergarten programs, and we will be sending our youngest daughter when she reaches preschool age. Mrs. King, Mrs. Terry and their staff are very nurturing, yet structured in their curriculum and classroom. Our daughter can't wait to go to school each morning! The Junior Kindergarten program is a tremendous asset to our community in that it prepares the students for the full day Kindergarten curriculum in our local schools. Our son left the Junior Kindergarten program knowing how to read and do addition, as well as many other skills that put him ahead of most other students in his Kindergarten class. We would highly recommend the St. Johns preschool. Thank you for making learning fun!"

Parent

"St. John's Preschool is a very special place. It is more than a school. It is a place where children learn the fundamentals of learning, but more importantly in an environment of kindness and compassion. The teacher and staff are absolutely outstanding. Our 2nd child was nervous to start school and had lots of tears, but within 2 weeks, he was running happily into school. To a parent, that speaks volumes. I have personally observed many words of praise and encouragement to the children. Academically, our child is learning very quickly. However, most important to me was an environment that my child was excited to go to and participate in. A positive start to education is instrumental to long-term success in learning. As a parent, I could not have asked for a better first school experience for my child!"

Parent of a St. John's Preschool boy

"St. John's preschool has done wonders for our 4 year old daughter, Candace. She has a sister who is 12 so the age difference is often a challenge in our home. St. John's preschool has helped Candace to develop the social skills needed to interact with children her own age. The curriculum that Mrs. King has developed is well rounded and builds the foundation for the children to begin learning fundamental skills in order to enter kindergarten. Candace is learning to follow directions and to interact appropriately with others. My husband and I are excited to see what new and exciting things St. John's preschool has in store for next year."

Parent of a Preschool girl

“I could not be more pleased with St. Johns preschool program. The only “complaint” I would have is lack of a website with information on it for each month, and you have already addressed that issue in your letter. Our grandson, Eli Whitmore, looks forward to his school every day. We have never had any of our children or grandchildren want to go to preschool or school each and every day as Eli does. I hope he keeps this enthusiasm when he enters kindergarten in the fall and all the years after that! I am amazed at the amount he has learned in such a short time. He knows all colors, numbers, shapes, basic math and can write his name. He is also showing interest in reading. He has learned to share, be a leader and help out around the house when asked to. He has learned very good manners. We love to hear the report he gives us after school, going over everything he learned that day. It is wonderful. Another comment I would like to make is what a blessing it is to have Eli in a faith based school. We are not members of the Catholic Church but that is not an issue at all. We are believers in Christ and try to follow his Word. Eli is learning to follow the Word also and it is a wonderful thing to see. I would love for you to see the video I made of Eli saying his blessing at home. It is on YouTube. Put the following numbers 20141111 145337 in the search bar and you will go right to it. I think you will enjoy it.”

Grandparent of a Preschool Boy

“Hi, I wanted to let you and Mrs. Terry know how much I’ve appreciated all you have done for not only Maveric but the other kids as well. Mav really enjoys school and he’s learned so much this year. Again, thank you from the bottom of my heart for being so good to my son and for giving him an awesome learning experience, he really does love you, he always talks about you!! Enjoy your summer and we will see you in August. Thanks again for making this a positive learning experience! May God bless you.”
