July 1, 2019

Dear Parents/Guardians, Faculty and Staff:

Serving as the Local Education Authority (LEA) under the Asbestos Hazardous Emergency Response Act (AHERA), I am required by the subject law to provide you with a report as to the activities involving asbestos that were undertaken during the previous year and to update you concerning the present year.

RAMM Environmental Services, Inc. serves as our legal Designated Person (DP) for the management of our Asbestos Program. The RAMM technicians are qualified by education, certification and experience under federal, state and local law to occupy this position. Mr. John O'Meara, our facilities coordinator, also assists RAMM with procedures required by the Asbestos Management Plan. Both RAMM and Mr. O'Meara report directly to the administration in all matters associated with the Asbestos Management Plan.

During the 2018-19 school year, RAMM Environmental Systems performed two six-month inspections as required by law. No major deficiencies were noted.

Required training of all maintenance personnel will continue. RAMM Environmental Services will continue to serve this year as the Designated Person (DP), as required by law. RAMM Environmental Services reports directly to me under my responsibility as the Local Education Authority (LEA) and the AHERA law.

The records for the Asbestos Plan are available for examination. If you wish to review the records, you may contact me for an appointment, with 24 hours advance notice, to examine them.

Sincerely,

Judith Berg
Principal
