

PROMOTION AND NON-PROMOTION

1. The major subjects in Grades 1-3 are Reading, English, and Mathematics. The major subjects in Grades 4-8 are Reading, Religion, English, Mathematics, Social Studies, and Science. The minor subjects are spelling, computer, band, and physical education. Any child who fails any subject during the third and fourth nine-week grading period, fails that subject automatically. A student must earn at least a 1.0 average in each subject in order to pass that subject.
2. A child failing any two (2) major subjects repeats the grade.
3. Failure in ANY subject will require summer school or study assignment. The principal and teacher will decide what is necessary to remove the failure.
4. A child will be retained in Kindergarten or Pre-kindergarten if the principal, teacher and parents determines that it is necessary.

Reading Promotion Requirements:

- If a student has not attained the necessary level of maturity or academic achievement to succeed in Grade 1 or Kindergarten
- Students in Grades 1-3 must successfully complete reading with a "C" 80 or better average.
- Any student receiving a "D" average in two or more major subjects will not be promoted to the next grade.
- Students in Grades 4-5 must achieve a "C" final average. A student who has a "D" final average in reading and fails one other major subject will not be promoted to the next grade.
- Students in Grades 6-7 must have at least a "D" average.
-
- **State law requires that a student is to be absent no more than 17 days in order for him/her to be promoted. Doctors' excuses for re-admission (although required) will not remove absent days from the record. The administration by state law can subsequently examine special circumstances and change the conditions for promotion depending that the child has met their academic requirements.**
