

WEEKLY NEWS

ASSUMPTION SCHOOL WEEKLY NEWS
October 21, 2020

Dear Parents and Students,

It is hard to believe that Jogathon is upon us. I want to thank each of our sponsors and the students that raised money for this fun event. I am quite excited for Friday. I usually take this day to run with the kids and cheer them on while they run or walk. Please look at the reminders attached to this email. It will be a fun day for all!

Thank you for your support of Assumption School.

I hope that you have a wonderful week and enjoy the wonderful weather we have been having!

Blessings, Mrs. Olson =)

Assumption Face Masks

We will be selling handmade Assumption School face masks as a fundraiser for the school. An order form was emailed to all parents on Monday.

Below is a link to the Covid certification for our Air & Surface units. The testing certifies the elimination of Covid-19 on surfaces by the ActivePure Technology that is contained in our purification systems. If you have any questions regarding this, please call Jim Karrat at Optimum at 508-474-3040.

Please remember these Daily checks:

- Fever (100.0°F or higher) or chills
 - Cough
 - Shortness of breath or difficulty breathing
 - New loss of taste or smell
 - Sore throat
 - Headache when in combination with other symptoms
 - Muscle aches or body aches
 - Nausea, vomiting, or diarrhea
 - Fatigue-when in combination with other symptoms
- Nasal congestion or runny nose (not due to other known causes, such as allergies) when in combination with other symptoms

Please keep your child/ren home if presenting any of these symptoms. Thank you for your cooperation.

Important Dates:

10/23—Jogathon

10/30—Halloween Dress Up
Day (NO COSTUMES)

FLU Vaccine:

Massachusetts students of all ages (6 months and up) will now be required to get a flu vaccine by December 31, 2020 in order to attend school unless medically exempt, the Department of Public Health announced August 19, 2020. The new vaccine requirement is a step to reduce flu-related illness and the overall impact of respiratory illness during the COVID-19 pandemic. It is more important now than ever to get a flu vaccine because flu symptoms are very similar to those of COVID-19 and preventing the flu will save lives and preserve healthcare resources.

Thank you for your cooperation.
