

Fourth Grade Summer Reading 2020

Welcome to fourth grade! I am looking forward to working with you and your children next year. We will start this year by discussing the books they have read over the summer. I would like them to choose two books of their choice. I would like one to be a 100-page novel, such as "Frindle," "James and the Giant Peach," or a Beverly Cleary novel. The other book can be a graphic novel, non-fiction book or a mystery. We will talk about what the story was about, where and when it took place, who were the main characters, and what was their favorite part.

I am also sending home math fact sheets. Please work on these throughout the summer. You may make as many copies of them as you like to continue the practice during the summer. During the school year, I test on addition and multiplication and they have between 4.5 to 5 minutes to complete the 100-problem test. You are more than welcome to use them for that purpose if you choose. You do not need to turn these sheets in at the beginning of the school year.

Enjoy!
