DIRECTIVES FOR WEDDING PHOTOGRAPHY AND VIDEOGRAPHY

1. The sacristy is the place where the liturgical ministers prepare for the liturgy. Photography or videography is not permitted in the sacristy (before or after the ceremony).
2. Photography or videography from within the sanctuary (on the altar step) is not permitted during the ceremony.
3. Use of any constant bright lights during the ceremony is not permitted. Flash is permitted.
4. The aisles of the church must remain free for access by the congregation during the ceremony, so please position yourself and your equipment so as not to obstruct aisle traffic.
5. While posed pictures are permitted in the sanctuary after the ceremony, any form of disrespect for that sacred space (shouting, loud talking, laughter, etc.), may necessitate our asking you to leave the church. Photographers are responsible to insure that the sacred character of the church is respected.
6. Nothing within the sanctuary is to be moved by photographers or videographers; nor is anything ever to be placed upon the altar.
7. Following the ceremony, your time for photography is limited because of other ceremonies, please be conscious of the time that is allotted.
