As we pass the midway point in August, it’s time for an update on the Walker Road widening/relocation of parish offices. In case you have been out of the loop, we were informed 18 months ago that the widening of Walker Road will require the demolition of our current office building.

We have gone through a careful process of examining possible sites for the offices and have narrowed it down to placing them in front of the Fireside Rooms in what is currently parking area. We have a tentative design on the building and the necessary revamping of parking, which is extensive. And, we have a land use attorney working with us who specializes in interfacing with the County on processes like ours where there is land condemnation/acquisition.

We had hoped to have the initial appraisal from the County by now and expected to be well into the negotiation of a fair value for the removal and building of the office, as well as for the value of the land being taken. Originally we were told if all goes well, there should be no money out of our pockets for this project, but . . . . . it is quickly becoming apparent that there will be. As we get some hard figures, we will keep you informed. As promised throughout my 12+ years here, we have funded all the operations of the parish out of the offertory without doing fundraisers. To avoid depleting our savings, we will likely provide an opportunity for those who wish to contribute specifically to this project. If you know of a good contractor who might take on a project like this, please let us know. Thanks to all of you who have been so generous to our parish!

And, on another note, in light of ongoing violence across the country, we have been examining security issues for our church and school. Last summer we made use of a safety grant to put a security coating on the school windows to make it more difficult for an intruder to enter. We also made changes within the school to make it as secure as possible in the event of an intruder.

Earlier this month we had a really helpful meeting with the Washington County Sheriff Department to get their assessment of protocol and risk. We are told that our church is not a high-risk target and are scheduling a training for staff, Mass Coordinators, and Greeters. We are blessed to have the Sheriff’s department close by and very ready to assist, including with training.

Ongoing advice we are all given is to pay attention to anything/anyone who looks like they “don’t fit” — here as well as in your neighborhood, workplace, and wherever you are. Let one of our Greeters or our Mass Coordinator know if you notice something here. Stay alert and trust your intuition if something doesn’t look right!

Finally, a warm farewell to Dustin Busse, our summer seminarian intern. After some vacation and family time, Dustin will return to Rome for continued studies. I have huge respect for Dustin and wholeheartedly affirm his vocation to the priesthood! Blessings on him, and on James and Justin too.

Blessings to Piper Aldan and Rollo Queen, who were baptized this weekend!

Congratulations to Melody Andrada and David Nguyen, who were married here on August 17th. Blessings to you both, and to all of our married and engaged couples!

Last week, funeral services were held for Vera Buelt. May her soul and all the souls of the faithful departed, rest in peace.

Birthday Blessings to David Anderson and Nieves Palazo

The flowers for this weekend are in loving memory of Long Nguyen.
Hello, everyone. This week I read a poignant interview with a young mom that’s left me thinking ever since. This woman is a professor at Oxford, happily married, two children. In the middle of her third pregnancy, she and her husband were given some devastating news: the little girl growing in her womb was afflicted with a “lethal skeletal abnormality,” and would almost certainly die at birth, or soon thereafter.

Despite her strong Christian convictions, this woman found herself being persuaded by the medical staff, her colleagues, and even her own self-protectiveness to consider terminating the pregnancy. “I told myself,” she says, “this is a medical emergency demanding a swift medical response. What shook me to the core was the phenomenal force of this self-protective instinct and I knew, even with my strong principles that I was capable in the extremity of shock, grief, and confusion of aborting my child and doing so feeling protective to the love of a relational God for a vulnera-ble person that He had entrusted into our care.”

Interestingly, what ultimately changed her mind was not a principle, but a prayer. In her words: “Principles, however good, were not (on their own) enough to carry me as a grieving individual through a pregnancy that would end in heartbreak and the possibility of watching my child die in pain. . . When it came to something so unthinkable that impacted my own life so deeply and directly, reasoned principles were in actual fact by no means as powerful . . . a motivation for action as I had assumed them to be.

I realized, it is eminently possible to believe strongly in a principle and yet to react in ways that are complex and even contradictory, especially when we are afraid. I needed not only principle but also hope. What changed the situation for me was a desperate prayer. I find it difficult to describe our experience, but as Paul and I prayed we felt as if God was asking us a question: ‘Here is a sick and dying child: will you love her for me?’ [Suddenly], our situation no longer seemed… a matter of ethical decision making. Rather we were drawn by an exquisite and gentle love — the love of a relational God for a vulnera-ble person that He had entrusted into our care.”

“This is a sick and dying child: will you love her for me?” What an extraordinary question. May all of us learn to see one another as God sees, and so be drawn ourselves into His “exquisite and gentle love”. . . .

Do you like kids, but don’t have your own kids or grandkids yet? Or perhaps you do, but they live far away and you rarely see them? Get your kid-fix by volunteering in Kid Zone!

Kid Zone provides children ages 18-35 months and 3-4 years with an age-appropriate worship service, and allows their parents to be fully attentive to their own worship at Mass. It operates during our 9:30am and 11:15am Masses, from mid-September through May.

We need both youth and adult volunteers to make Kid Zone a success. Teens do most of the teaching, but adults are especially needed to supervise the classroom and help the teens when needed. We will provide all the training you’ll need. Plus, for school parents, you can earn service hours/points! Contact Cathie or visit h-t.org/kid-zone to learn more.

**For What It’s Worth: Thoughts on Faith**

Erin Nieves – erin@h-t.org

ONE MORE THOUGHT….from St. Teresa. Our world is filled with so much beauty and goodness, but anymore, turn on tv or your news source, and that is not what we. Mass shootings, suicides, abuse, trafficking, abortion, euthanasia, assisted suicide, war, terrorism, the plight of refugees, our wounded warriors, discrimination, sickness, homelessness. I am sure you can add to my list. Think of synonyms for the word suffer: agony, distress, torment, grief, affliction, sorrow, heartbeat, woe, and anguish. Words that make tangible the plight endured by those affected. And where does suffering come from? Evil. Always!

The answer to the problem of evil is first and always GOD! But God needs you and me too. At the end of the day, we can’t fix the big problems but we can help right where we are in the middle of our own daily lives, to be first responders. That can take on many forms, but all done with God’s grace and help as we act on Christ’s behalf. As St. Teresa reminds us:

“Christ has no body now but yours. No hands, no feet on earth but yours. Yours are the eyes through which he looks compassion on this world. Yours are the feet with which he walks to do good. Yours are the hands through which he blesses all the world. Yours are the hands, yours are the feet, yours are the eyes, you are his body. Christ has no body now on earth but yours.”+

Climate Change is a reality and we can make a difference!

Tip # 7 — Practice saying ‘No’!

You know the “3 R’s” — Reduce, Reuse & Recycle — but there’s also Repurpose and Refuse. That means saying ‘no’ to plastic bags, cups, straws, or any kind of plastic material that vendors offer you, and replacing them with something reusable. Get in the habit of carrying a reusable water bottle and travel mug. Ask your favorite establishments to use “real” dishes if they have switched to disposable. Bring a mug to Holy Trinity’s Coffee & Donuts on Sundays and refuse the paper cups! Switch to disposable. Bring a reusable container. Invest in mesh bags for your produce from individually packaged foods to bulk foods and use a reusable container. Invest in mesh bags for your produce at the grocery store. Think about the many ways you use disposables, and try to eliminate as many as you can!

A couple of weeks ago I told you about additional services that were being added to our monthly first Friday hosting of the Emergency Dental Van. I mentioned that effective August 2nd we would be working closely with additional groups in an effort to better serve the community. As has been the case for the last 18 months, Medical Teams International brought their emergency dental services van. They were joined by a mobile mammography van provided by Tuality Health Services; Virginia Garcia Health Clinic provided a representative to renew or enroll people in the Oregon Health Plan. The intent was to create an environment in which people would have easy access to these critical services; come for one and utilize the others. I am pleased to say it worked!

Twelve people were treated by the dental van. That was a large number of patients and alone would have made the event a success. However, when informed of the other services available, at least two of them enrolled in the Oregon Health plan and a third utilized the mammography van. None of this would have happened without all of these services being together.

In addition to the twelve served by the dental van, a total of seven people enrolled in the Oregon Health Plan. By taking this step, these individuals gain access to basic health care services which will improve not only the quality of their lives, but reduce overall costs to the health care system. A true win-win!

Finally, while we only had one person utilize the mammography van (there was a mis-communication with the organization that was scheduling appointments), that person again demonstrated the power of bringing these services together. With the communication issue resolved, I am confident the van will see far more patients next month.

September 6th is our next Health Services Alliance event. In addition to the above services we will also have the Lion’s Club here who will offer vision, glaucoma and glucose testing. If you, or anyone you know could utilize ANY of these services, feel free to contact me for more information. Walk-ins are welcome for all services except the dental van and all will be available from 8:30-2:00pm in the Fireside Room. Spread the word!
