YOUR CAPITAL CAMPAIGN CONTRIBUTIONS FUND SCHOOL WINDOWS & ROOF

Here's a great parish trivia question: How many windows are in our school building? The answer is 84. We know that because that's how many windows were recently replaced, almost in time for the start of school.

The new windows feature built-in blinds and will offer far greater energy efficiency in the winter. The school roof also was replaced.

Both projects were funded by the *Building Our Future* capital campaign, which generated pledges and contributions of \$1.3 million. These two projects were estimated to cost \$330,000. The church roof also will be replaced.

Another major component of the *Building Our Future* campaign is a renovation of the church's interior. Watch for updated information on that project in the next parish newsletter.

The pledges and contributions for the capital campaign fell a bit short of the \$1.5 million goal. If you would like to make a pledge or increase your pledge, please contact Fr. Tom or Bobbi Gadke, the parish finance director.
