# Congratulations to Our 7th Grade at Saint Paul School

We will be recognizing the grade level with the highest IOWA test scores at a special mass on Saturday, June 1, at 4:00 PM.

This year we will recognize Grade 7, where the class scores were on the high school level in all areas: the ninth grade level in math, the eleventh grade level in science, and the twelfth grade level in English Language Arts and Social Studies.

Even though this was a much more challenging test than in past years, we are happy to report that the class composite scores were again at least one grade level above current placement for each grade tested and, in some cases, two or three grade levels higher.

## Congratulations Grade 7 and all of our students at Saint Paul School!

Come and visit our great school! Applications are now being accepted for the 2013-2014 school year for Pre-K3, Pre-K4, Kindergarten and Grades 1 through 8 (limited openings in most grades). We have a new full-day program for three-year old children!

Please visit the school website for more information. If you'd like to visit the school, please give us a call. We look forward to meeting you!
