Re: School Closure / Online Learning

Date: March 12, 2020

Following the lead of the Archdiocese and other Catholic High Schools, Cathedral High School will be closed tomorrow, March 13. All students will log into their Google Classrooms tomorrow and submit all assignments by 2:30pm. Each class will require a submission for attendance and grading purposes.

Next Week:

Monday, March 16 - As per the calendar and the email you received last week, school was scheduled to be closed on this day for a Professional Day for the faculty. Students will not need to report to school or to their virtual classroom.

Monday, March 17 - As per the calendar and the email you received last week, school was scheduled to be closed on this day in honor of St. Patrick. Students will not need to report to school or to their virtual classroom.

March 18 - March 20: Online Learning Begins

Faculty and students will use the online platforms in **Google Meet** and **Google Classroom** to teach/attend classes from home. As all classes will be in session remotely, the school building will be closed. Faculty and students will follow their regular schedule with all classes to take place remotely at their regularly scheduled time. The students should follow the "A" day schedule each day. The day will begin for each student at 8:10am and end at 2:30pm.

The students may use their chromebooks, Ipads, personal devices, or phones. Faculty will take attendance and interact with the class during the class period. Each class period will require a submission from each student in that class. The teacher will determine the assignment. The assignment must be submitted to the teacher before the end of that class period for attendance and grading purposes. While using **Google Meet** and **Google Classroom** all comments, questions, and communications are shared within the class. As such, proper classroom etiquette is expected.

Please direct any questions or concerns about a particular class, assessment or assignment to your daughter's teacher via email.

As of right now, we are hoping to resume classes on March 23. If anything changes, I will email you to let you know the plan moving forward.

It is very important that we treat this online learning platform as we would a regular class. Instruction is not to be halted or suspended, and students and teachers will be accountable for day to day lessons and assignments.
