

## INFECTION CONTROL

1. Child's temperature will be checked before entering the classroom.  
Monitor children throughout the day for signs of runny nose, cough, **fever of 100.4 or higher**, or gastrointestinal symptoms, rash, redness to eyes and lips that may develop during the day.
2. St. Matthew School will have a dedicated spaced provided and out of the classroom where a staff member can care for a sick child while being separated from others until a family member can come pick up within **one hour**.
3. During the time of the child's isolation an appointed staff member will wear gloves and a face mask and a face mask will be placed on the child who is sick. The child's belongings will be placed in a plastic bag and the staff member, the child, and the child's belongings will go to the designated space along with his/her mat and a toy or book.
4. The sick child will use a separate bathroom from others. The bathroom will be wiped down after use.
5. A family member will pick up the child at the office. The family member will call the office (215 333-3142) to let staff know of their arrival and the staff member will bring the child to the designated family member.
6. After the sick child exits the school building, the isolation room will be disinfected and sanitized.
7. The children from the class of the student who is sick will be relocated to the school yard play area. When entering back into the school, each child will wash his/her hands before returning to the classroom.
8. While the children are not in their classroom, the classroom will be sanitized.
9. If there is a positive case of COVID-19 in a child or adult who had been present in the school, St. Matthew School will inform the Office of Child Development by contacting the appropriate Regional Office of Certification and contact the Department of Health for further guidance.
10. If there is a positive of COVID-19 in a child or adult who was present in the classroom, that classroom will shut down for 72 hours.
