

## Bridge Update

The replacement of the Pennswood Bridge Project is moving along on schedule at this time. Except for the major inconvenience of the detour and some landscaping changes, the work has not yet affected our property a great deal. That will be changing shortly. Due to the use of heavy equipment on Pennswood Road in front of our buildings, we will have a temporary walkway installed parallel to our sidewalk.

The first part of the walkway will start near our entrance of the parking lot across from the Acme, through the yard of the parish office and the rectory, until it turns right and enters the church courtyard at the porte-cochère. The second part of the walkway will be in front of the church and will be installed at a later date. The walkways will have a privacy fence placed on the street side to protect our pedestrians.

We thank you for your patience during this time.
